

BioClean Extra™

EXTRA LENGTH STERILE LATEX CLEANROOM GLOVES

BLAS

Bioclean Extra™ Sterile 400mm (16") Length Latex Cleanroom Gloves have been developed for users who require increased protection and control against product contamination.

They are textured for excellent grip, particularly when wet, and have extremely low levels of particulates and extractables.

Sterile cleanroom gloves are packed in 'Easy-tear™' plastic packaging that is silicone, amine and amide-free to ensure compatibility with ISO Class 4 and EU GMP Grade A environments.

Low levels of latex proteins minimise risk of potential allergies and the extra length provides improved user protection. These Latex Cleanroom Gloves are also available in a non-sterile version and in a range of sizes to suit all users.
