

BioClean 100™

NON-STERILE EXTRA LENGTH NITRILE CLEANROOM GLOVES

BNAL

BioClean 100™ non-sterile powderfree ambidextrous extra length 400mm (16") nitrile cleanroom gloves, with its excellent chemical protection, set new standards of excellence in cleanroom gloves. Double bagged for critical environment use, they are thoroughly washed in de-ionised water for ISO Class 5 compatibility.

These extra length nitrile cleanroom gloves are 100% latex free, eliminating all latex allergy problems. They are fully textured for improved grip and for the safe handling of products, even when wet.

They are resistant to a wide range of chemicals, stronger than natural latex gloves and have excellent ESD properties. The elbow length, 400mm (16"), glove provides added user protection above the cuff area.

Extra length nitrile cleanroom gloves are available in a wide range of sizes to suit all users.
