

PowerSpot™ Power Solution Technical Specifications

Dimensions

- 17" Deep x 9" Wide x 13³/₄" Tall

Power Input

- Input Voltage nominal 120 VAC (+/-10%)
- Input Current: 3 Amps
- Frequency: 60Hz +/- 5Hz
- Operating Temperature: 0° C (32° F) to + 50° C (122° F) Ambient
- Medical grade AC input electromagnetic interference (EMI) filter

Power Output

- AC Output: 120VAC, 60Hz @ 150W, Pure Sine-Wave

Charging

- Supports Bulk, Acceptance and Float charge modes
- Integrated circuits to prevent overcharging
- Simultaneous charging and computer operation
- Estimated charge time to full capacity in a no-load condition
 - LPS TL Series: 5.5 hours
