Power on the move...

where you need it, when you need it!

AC Power
Built in 4-outlet power-strip.

Battery Gauge
Easy to view indicator light.

Durable
304 grade stainless steel enclosure.

MetroMax i™ with PowerSpot

Mobile Power Units.

6-8 Hours of AC Power—Integrated power system provides 150 watts of AC power offering up to 6-8 hours of mobile computing run time.

True Sine Wave Power—Rapid rechargeable batteries convert to True Sine Wave AC output.

Corrosion Proof—Mobile Power Units are constructed from engineered polymers and 304 stainless steel providing a lifetime of performance.

Maneuverable—Small footprint maximizes maneuverability. Available in 18”x30”, 18”x36”, 24”x30”, and 24”x36”. Other sizes and configurations available.

Storage—Mobile Power Units have ample room for manuals, peripherals and other necessary items.

***PRE-CONFIGURED UNITS-** Pre-configured units consist of (3) Super Erecta stainless steel solid shelves or (2) MetroMax i polymer solid shelves and a Phenolic worksurface, (2) 33” posts, (2) 54” posts, (1) flat panel monitor mounting rail, (4) casters (2 with brake), (1) stainless steel handle, wire management ties and (1) PowerSpot Mobile Power System.
