

# STERILE USP PURIFIED WATER STERILE

**GAMMA CLEAN's** innovative products assist in the control of biological contaminants in your most critical cleanroom environments.

**GAMMA CLEAN** delivers consistent product performance, quality and cost effectiveness along with strong technical support and services.

## FOR CLEAN ROOM APPLICATIONS

GAMMA CLEAN's Clean room products liberate you from the risks associated with traditional cleaning methods that courted the threat of contamination by relying on non sterile products.

## STERILE USP PURIFIED WATER

GAMMA CLEAN's Sterile USP Purified Water is used where high quality water is essential in critical clean room environments for chemical formulation, cleaning and rinsing. GAMMA CLEAN's Sterile Purified Water is 0.2 micron filtered then terminally sterilized by gamma irradiation. The product is available in a 32 oz. bottle with a trigger sprayer as well as 1 and 2 gallon containers. All products are accompanied with a Certificate of Analysis and Certificate of Sterility.

GAMMA CLEAN's Sterile USP Purified Water containers are double bagged and terminally sterilized to a SAL of  $10^{-6}$ , therefore minimizing the introduction of contaminants during their passage into the clean room.

- Tested in accordance with USP Purified Water specifications.
- High quality Sterile USP Purified Water ensures consistency of performance when formulated with cleaning/sanitizing agents.
- The use of sterile components allows for greater confidence in your contamination control process.
- Saves you from the substantial cost and burden on resources attributed to in-house manufacturing.

GAMMA CLEAN's user-friendly products  
reduce cleaning time.

### ORDER INFORMATION

Cat. #	Product Description
GCW-032S	GC Sterile USP Purified Water, 32 oz.
GCW-01GS	GC Sterile USP Purified Water, 1 Gal.
GCW-02GS	GC Sterile USP Purified Water, 2 Gal.
