Maintenance Schedule

Ultra-Clean Motorized Shoecleaner

- The Model 1600 Mechanical Shoe Brusher is designed with very few moving parts and requires minimal maintenance
- All Motors and drive components are factory lubricated for the life of the equipment.
- The following simple maintenance schedule should be followed but may vary depending upon usage.

EVERY TWO WEEKS

1. Disposable dust bags should be replaced (Model 1600VA only)
2. Unit should be generally dusted and cleaned inside

ONCE A MONTH

1. Vacuum filter should be replaced (Model 1600VA only)
2. Brushes should be inspected and replaced if worn to assure proper cleaning action.

NOTE

To prevent scratches care should be taken when opening the machines cover as it rests on the floor.

Power driven nylon upper and tough fiber lower brushes adjustable for optimum cleaning.

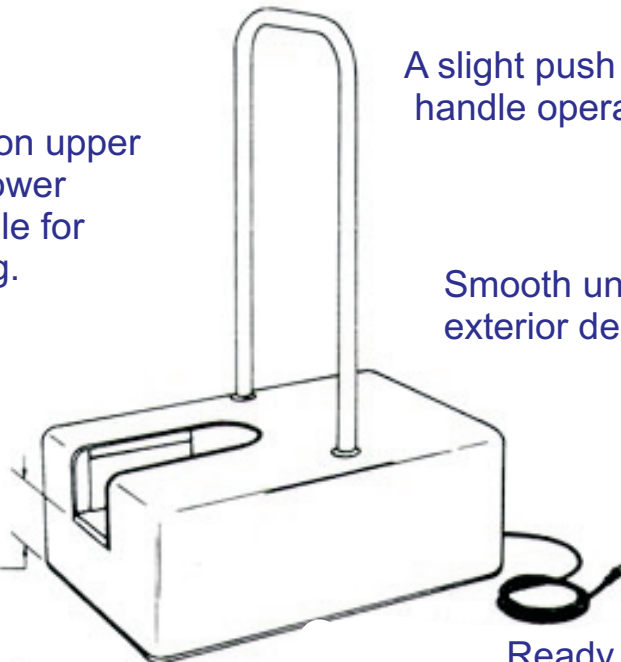

A slight push of the waist-high handle operates shoe cleaner.

Smooth uncluttered exterior design

7" foot rise.

Brush speed control inside

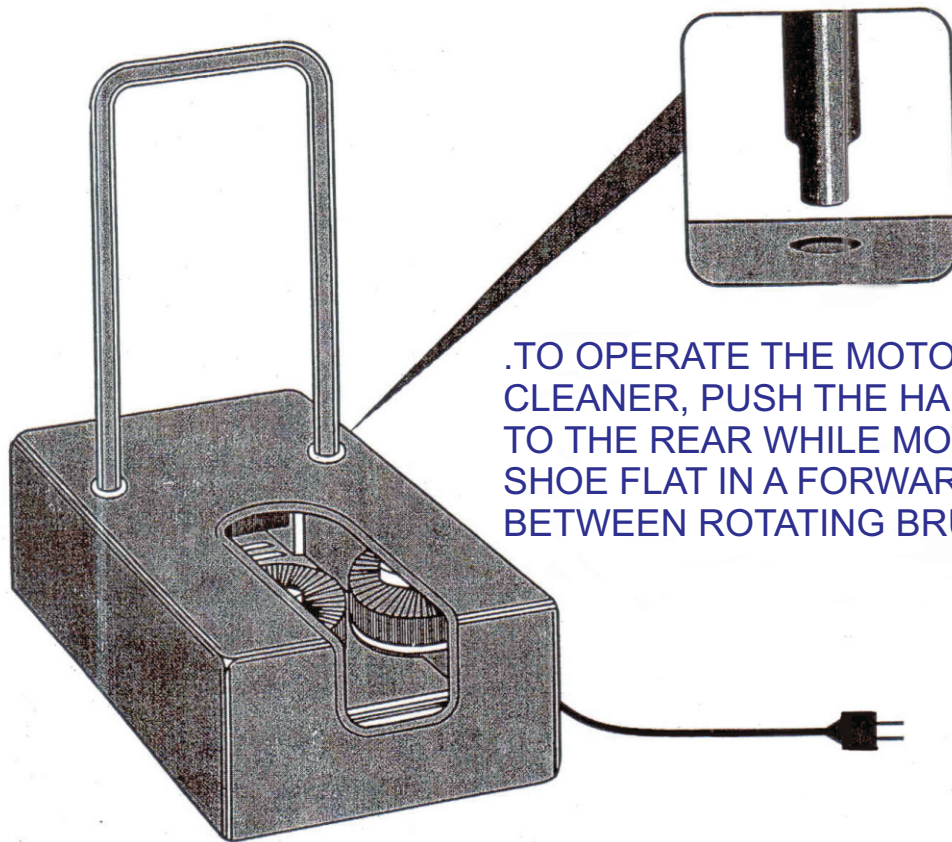

Ready to operated when plugged into standard 110V outlet

ASSEMBLY & OPERATING INSTRUCTIONS

ULTRA-CLEAN MOTORIZED SHOE CLEANER

• INSERT HANDLE INTO MATING SOCKETS IN SHOE BRUSHER FOR PROPER INSTALLATION, THE HANDLE SHOULD BE INSERTED THE FULL DEPTH OF THE STUBS

• TO OPERATE THE MOTORIZED SHOE CLEANER, PUSH THE HANDLE SLOWLY TO THE REAR WHILE MOVING YOUR SHOE FLAT IN A FORWARD MOTION BETWEEN ROTATING BRUSHES.

NO INTERNAL CONNECTIONS OR ADJUSTMENT SHOULD BE REQUIRED
